Over the last several weeks there have been a number of students in our band program who have taken extra steps to improve and advance in their musical endeavors. As is the case whenever there is this kind of effort there are varying results and lessons to be learned.

Regardless of those results the important thing to take from those efforts is the experience gained and how to apply it next time. While each person expects to grow from their experiences sometimes that growth occurs in ways you do not expect or understand.

It's important to not let anything deter you from what you want to accomplish. You are capable of great things...sometimes the road there is not easy...but the results are worth it!

Don't ever give up!
